Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Executive Order N-33-20**

On 03/19/20, the California State Public Health Officer and Director of the California Department of Public Health ordered all individuals living in the State of California to stay home or at their place of residence, except as needed to maintain Continuity of Operations of the Federal critical infrastructure sectors.

- **Global Health Advisory**

On 03/19/20, the U.S. Department of State issued a Global Health Advisory at Level 4 (Do Not Travel) due to the global impact of COVID-19.

- **FEMA-4482-DR-CA**

On 03/22/20, President Trump approved Major Declarations FEMA-4482-DR-CA (DR-4482) for the COVID-19 Pandemic.

Confirmed Global COVID-19 Cases – Per Worldometers COVID-19 Live Updates as of 10/13/20 at 1000 hours:

- 38,239,042 (+322,094) total confirmed cases in 213 countries
- 1,088,158 (+4,801) total deaths

Confirmed United States COVID-19 Case – Per Centers for Disease Control and Prevention (CDC) as of 10/13/20 at 1000 hours:

- 7,787,548 (+46,614) total confirmed cases
- 214,446 (+338) total deaths

Confirmed California COVID-19 Cases - Per Medical Health Coordination Center as of 10/13/20 at 1100 hours:

- 852,406 (+2,378) total confirmed cases

- Please see attached California Health & Human Services (CHHS) Agency / Cal OES Joint Situation Report for additional details.

SITUATION SUMMARY

PG&E Potential Public Safety Power Shutoff (PSPS) Event – PGE PSPS 10.14.20

On 10/11/20 at 2016 hours, PG&E notified the California State Warning Center they are activating their PSPS protocols due to a threatening weather event in their service area.

- Current PSPS Stage: Activating PSPS Protocols / Potential to De-energize.

- Counties Currently Impacted by De-energization: None

Great ShakeOut Exercise:

- On 10/15/20 at 1015 hours millions of people in communities throughout California will participate in the Great California ShakeOut earthquake drill and, for the first time, the MyShake smartphone app will be tested in collaboration with the statewide drill. The MyShake app, developed by the UC Berkeley Seismology Lab, sponsored by the State of California Governor's Office of Emergency Services (Cal OES), is the first app to provide statewide earthquake early warning alerts. The app is one of the delivery tools of Earthquake Warning California. This international ShakeOut event is an opportunity to practice earthquake safety by engaging in the "Drop, Cover, and Hold On" drill, the appropriate action to take when an alert is received or shaking is felt, to reduce the potential for injuries and death during an earthquake. This year also marks the 31st anniversary of the Loma Prieta earthquake impacting the greater San Francisco bay area causing injuries, fatalities, and damage.
- Inclusion of the MyShake smartphone app element follows the Cal OES launch earlier this month of Earthquake Warning California's - Don't Get Caught Off Guard, education and outreach campaign. The goal of the campaign is to educate Californians on tools and resources available to help them stay safe during an earthquake through Earthquake Warning California, the first statewide earthquake warning system in the nation. This includes no-cost resources that can give Californians potentially seconds notice before an earthquake is felt, such as the MyShake App, Government Wireless Emergency Alerts (WEA), and Android Earthquake Alerts.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2020-LAW-45081, 10/13/20, 1245 hours:** The AFRCC contacted CalOES regarding a PLB activation in the Death Valley National Park (36.275804 N, -117.078615 W). This area plots to an elevation of approximately 8,000'. The CalOES Law Branch made contact with the National Park Service and the Inyo County Sheriff's Office and together they initiated a response effort. At approximately 1500 hours the National Park Service advised of how they made contact with the device's registered and learned that it was activated accidentally. **MISSION CLOSED**
- **2020-LAW-43000, 09/19/20, 1016 hours:** Cal OES Law Duty Chief (LDC) received a request from Cal OES Inland Region for 30 CNG personnel to assist Butte County with animal care operations. **Update, 09/19/20, 1204 hours:** contacted Butte and they informed me they exhausted all local and regional resources. They conducted outreach several times for animal operations and were not successful. They were not accepting non-organizational volunteers due to lack of background of volunteers that would be caring for the animals. They also indicated that volunteer resources were limited. **MISSION ONGOING**
